I. Foreign-Trade Zones in General:

Foreign-trade zones (FTZs) were created by the Foreign-Trade Zones Act of 1934 ("the FTZ Act") for the purpose of expediting and encouraging foreign commerce. Changes to the FTZ Act in 1950 that permitted manufacturing and exhibiting in FTZs have broadened the objectives of the program. FTZs are secured areas under U.S. Customs supervision that are considered outside the customs territory of the United States. Merchandise may be moved into an FTZ for storage, exhibition, manufacture, or other operations not otherwise prohibited by law. Customs duties on foreign merchandise are not collected until the merchandise is entered into the U.S. Customs territory.

II. Foreign-Trade Zone No. 32:

Foreign-Trade Zone, No. 32 was established by Board Order 123 (September 6, 1977). It was expanded three times by Board Orders 184 (March 3, 1982), 466 (March 20, 1990) and 1507 (March 13, 2007). It was reorganized under the Alternative Site Framework (ASF) by Board Order No. 1878 (December 20, 2012). The Greater Miami Foreign-Trade Zone, Inc. is the Grantee of FTZ No. 32 and the Service Area of FTZ No. 32 covers the portion of Miami-Dade County located north of State Road 836 (Dolphin Expressway) and south of US-27 (SW Okeechobee Road) and west of State Road 969 (Milam Dairy Road and West 72nd Avenue) to State Road 825 (NW 137th Avenue). FTZ No. 32 presently consists of one (1) Permanent Magnet Site and ten (10) Usage Drive Sites – see Exhibit A. As new Usage Driven Sites, subzones and Magnet Sites are added, Exhibit A will be updated.

1. This Zone Schedule is published in accordance with 15 C.F.R. 400.44. The Zone policy, rules, regulations, rates and charges of this schedule shall apply at Foreign-Trade Zone No. 32, unless otherwise provided for.
2. Pursuant to 15 C.F.R. 400.42 and 400.43, the rates and charges for services within the Zone shall be fair and reasonable, and the Grantee shall afford uniform treatment under like conditions to all users. The FTZB shall determine whether the rates and charges are fair and reasonable.
3. Pursuant to 15 C.F.R. 400.38, usage driven sites can be established within 30 days of the filing of a minor boundary modification request by the Grantee. Pursuant to 15 C.F.R. 400.25, subzones outside the Service Area can generally be established, if there is no objection encountered, within 5 months of the filing of the subzone request by the Grantee. All entities requesting the Grantee to apply for authority to establish a usage driven/subzone site must first enter into an agreement with the Grantee governing the proposed operations at the site. All requests for usage driven/subzone designation will be reviewed by the Grantee and all entities will be afforded uniform treatment with respect to the handling of the request by the Grantee. Should the Grantee determine to sponsor the usage driven/subzone site application, it will be the obligation of the applicant for the new site to prepare the application and bear all costs associated with the preparation and filing of the application, including any filing fees assessed by the FTZB.

Pursuant to 15 C.F.R, 400.24(b) Magnet Sites can be established provided that certain criteria are satisfied. All requests for the establishment of a new Magnet Site will be reviewed by the Grantee and all entities will be afforded uniform treatment with respect to the handling of the request by the Grantee. Should the Grantee determine to sponsor the expansion application, it will be the obligation of the applicant for the new Magnet Site to prepare the expansion application and bear all costs associated with the preparation and filing of the application, including any filing fees assessed by the FTZB.

Since the focus of the ASF is the expeditious and cost effective establishment of usage driven/subzone sites for individual entities, any entity that seeks magnet site designation must demonstrate a compelling need for said designation and shall provide letters of commitment to activate parcels within the requested magnet site from multiple Operators.

4. All requests and applications to the FTZB by Operators and Users of FTZ No. 32 shall either be submitted by the Grantee or shall include a letter of transmittal or concurrence from the Grantee. Such requests include, but are not limited to, applications for production authority, subzone applications, minor boundary modifications, determinations of or expansions of previously approved scope of authority for Zone procedures. All requests to CBP by Operators of FTZ No. 32 shall include a letter of transmittal or concurrence from the Grantee. Such requests include, but are not limited to, activation, deactivation, or alteration of zone areas.

5. Pursuant to 19 U.S.C 81o(c), no merchandise, operation or process of treatment will be permitted in the Zone that is detrimental to the public interest, health and safety.

6. All persons conducting business within FTZ No. 32 and all operations moving merchandise into or out of FTZ No. 32 must strictly conform to the Foreign-Trade Zones Act (FTZA), FTZB Regulations, CBP Regulations, this Zone Schedule and all other applicable federal, state and local laws, rules, and regulations. This Zone Schedule may be modified, amended or replaced by the Greater Miami Foreign-Trade Zone, Inc. at any time if it is determined to be necessary or appropriate to do so. The Greater Miami Foreign-Trade Zone, Inc. shall, in its sole discretion, interpret the provisions of this Schedule and determine the applicability of any of its provisions.

7. The Grantee is responsible for preparing and filing with the FTZB an Annual Report summarizing all Zone activity from January 1 through December 30 of each year. The Report shall be filed by March 31 of each year pursuant to

current requirements of the FTZB. By February 15 of each year, all Operators shall submit to the Grantee, through the Online FTZ Information System (OFIS) account established for each Operator by the Grantee, the data and information required to complete the Annual Report for the FTZB.

X. Inventory Control and Recordkeeping System:

1. The Operator will maintain either a **manual or automated inventory control and recordkeeping system** or combination manual and automated system capable of:

(A) accounting for all merchandise, including domestic status merchandise, temporarily deposited, admitted, granted a zone status or status change, stored, exhibited, manipulated, manufactured, destroyed, transferred, and/or removed from the FTZ;

(B) producing accurate and timely reports and documents as required by regulations;

(C) identifying shortages and overages of merchandise in the FTZ in sufficient detail to determine the quantity, description, tariff classification, zone status, and value of the missing or excess merchandise;

(D) providing all the information necessary to make entry for merchandise being transferred to the Customs territory;

(E) providing an audit trail to Customs forms from admission through manipulation, manufacture, destruction or transfer of merchandise from the FTZ either by zone lot or Customs authorized inventory method.

2. **Procedures Manual** -- the Operator will provide the CBP Port Director with an English language copy of its written inventory control and recordkeeping systems procedures manual and all subsequent changes thereto. The Operator may authorize a User to maintain its individual inventory control and recordkeeping system and procedures manual, however, the Operator remains responsible to CBP and liable under its bond for supervision, defects in, or failures of such a system.

3. **Admission of Merchandise** -- all merchandise will be recorded in a receiving report or document using a zone lot number or unique identifier. All merchandise, except domestic status merchandise for which no permit for admission is required must be traceable to a CBPF 214 and accompanying documentation. Quantities received will be reconciled to a receiving report or document such as an invoice with any discrepancy

reported to the Port Director. The receiving report or document is required to provide sufficient information to identify the merchandise and distinguish it from other merchandise. Merchandise received will be accurately recorded in the inventory system records from the receiving report or document using the zone lot number or unique identifier for traceability.

4. **Accountability for merchandise** -- a zone lot number or unique identifier will be used to identify and trace merchandise. Fungible merchandise may be identified by an inventory method authorized by CBP, which must be consistently applied, such as First-In-First-Out (FIFO) and using a unique identifier. The inventory records will specify by zone lot number, or unique identifier (a) the location of merchandise; (b) zone status; (c) cost or value, except where the operator's or user's financial records maintain cost or value and the records are made available for Customs review; (d) beginning balance, cumulative receipts and removals, adjustments, and current balance by date and quantity; (e) destruction of merchandise; and (f) scrap, waste, and by-products.

5. **Physical inventories** -- the Operator is required to take at least an annual physical inventory of all merchandise in the FTZ (unless continuous cycle counts are taken as part of an ongoing inventory control program) with prior notification of the date(s) given to CBP for any supervision of the inventory deemed necessary. The Operator will notify the Port Director of any discrepancies.

6. **Annual reconciliation** -- the Operator will prepare a reconciliation report within 90 days after the end of the zone/subzone year unless the Port Director authorizes an extension for reasonable cause. The Operator will retain the annual reconciliation report for a spot check or audit by CBP. The report will contain a description of merchandise for each zone lot or unique identifier, zone status, quantity on hand at the beginning of the year, cumulative receipts and transfer (by unit), quantity on hand at the end of the year, and cumulative positive and negative adjustments (by unit) made during the year. The Operator will submit to the Port Director within 10 working days after the preparation of the annual reconciliation report, a letter signed by the Operator certifying that the annual reconciliation has been prepared, is available for CBP review, and is accurate. The certification letter is required to contain the name and street address of the Operator, where the required records are available for CBP review; and the name, title, and telephone number of the person having custody of the records.

7. **Annual system review** -- the Operator will perform an annual internal review of the inventory control and recordkeeping system and report to the Port Director any deficiency discovered and corrective action taken.

8. **Shortages and overages** -- the Operator will report, in writing, to the Port Director upon identification, as such, of any (a) theft or suspected theft of merchandise; (b) merchandise not properly admitted to the zone; or (c) shortage of one percent or more of

the quantity of merchandise in a lot or covered by a unique identifier, if the missing merchandise would have been subject to duties and taxes of \$100 or more upon entry into the customs territory. The Operator will record upon identification all shortages and overages, whether or not they are required to be reported to the Port Director at that time, in its inventory control and recordkeeping system. The Operator will record all shortages and overages as required in the annual reconciliation report. The person with the right to make entry is required to file, within 5 days after identification of an overage, an application for admission of the merchandise to the zone on CBPF 214 or file a Customs entry for the merchandise. If a CBPF214 or a Customs entry is not timely filed, and the Port Director has not granted an extension of the time provided, the merchandise will be sent to general order.

XI. Handling and Movement of Merchandise:

1. **Receipt of merchandise** -- merchandise will be admitted into the zone only upon application on a uniquely and sequentially numbered CBPF 214 ("Application for Foreign Trade Zone Admission and/or Status Designation") and the issuance of a permit by the Port Director. Exceptions to the CBPF 214 requirement are for merchandise temporarily deposited, transmitting merchandise, or domestic merchandise admitted without permit. The Operator is required to maintain a lot file containing a copy of the CBPF 214, the examination invoices, and all other documentation necessary to account for the merchandise covered by each CBPF 214. The lot file will be maintained in sequential order by using the unique number assigned to each CBPF 214 as the file reference number. Where a Customs-authorized inventory method other than a lot system is in use, such as FIFO, a lot file may not be used, yet the Operator will maintain a file of all CBPF 214's in sequential order.

2. **Direct delivery procedures** – an Operator may qualify for direct delivery if its operations are predictable and stable over a long term and are relatively fixed in variety; merchandise is not restricted or of a type requiring CBP examination before or on its arrival, and CBP has no reason to believe the merchandise will be inaccurately described in admission documents; and when the Operator is the owner or purchaser of the merchandise.

3. **Manipulation of merchandise** -- prior to any action the Operator is required to file with the Port Director an application (or blanket application) on CBPF 216 for permission to manipulate, manufacture, exhibit, or destroy merchandise in the zone. After CBP approves the application (or blanket application), the Operator will retain in his recordkeeping system the approved application. The Port Director is authorized to approve a blanket application for period of up to one year for a continuous or repetitive operation. The Port Director may disapprove or revoke approval of any application, or may require the operator to file an individual application.

4. **Transfer of merchandise -- (a) to another FTZ with a different operator at the same port** must be by a licensed cartman under an entry for immediate transportation on CBPF 7512 or other appropriate form with a CBPF 214 filed at the destination zone and **(b) to another FTZ at another port** must be by bonded carrier under an entry for immediate transportation on CBPF 7512.

When merchandise is transferred from one FTZ to another, the operator of the transferring zone must provide the operator of the destination zone with the documented history of the merchandise being transferred. Upon arrival of the merchandise at the destination FTZ, it is admitted under the normal zone admission procedure except that no invoice or CBP examination is required. When the historical documentation is received, the operator of the destination FTZ must associate it with the CBPF 214 for admission of the merchandise and incorporate that information into the zone inventory control and recordkeeping system.

5. **Removal of merchandise from FTZ** -- except domestic status merchandise, no merchandise may be removed from the FTZ without a Customs permit on the appropriate entry form or other document as required by pertinent regulations. The Port Director may authorize transfer from the zone without physical supervision or examination by CBP. Upon issuance of a permit, the Port Director will authorize delivery of the merchandise to the Operator, who may then release the merchandise to the importer or carrier.

- (a) **Transfer to customs territory for consumption** -- a CBPF 3461 permit must be filed with and approved by CBP prior to the removal of any foreign status merchandise from the FTZ for entry into the customs territory for consumption.
- (b) **Weekly estimated entries for consumption** -- an Operator or User may, if it meets certain criteria, remove merchandise from the Zone based upon weekly estimated entries. The weekly estimated entry covers any 7 consecutive day period and shall be treated as a single entry for MPF purposes.
- (c) **Transfer to customs territory for exportation** -- a CBPF 7512 permit must be filed with and approved by CBP prior to the removal of any foreign status merchandise from the FTZ for entry into the customs territory for exportation. The bonded carrier will assume liability for the transportation and exportation of the merchandise.
- (d) **Weekly Estimated Exports** -- CBP may approve removal for exportation of merchandise from the Zone based on weekly estimates.
